

# MetaGreens®

The phytonutrient equivalent of about 5 dinner salads!

## The Univera Difference

Cruciferous vegetables such as broccoli and Brussels sprouts, along with powerful levels of alfalfa, spirulina, barley, oats and pineapple, are combined by cold-pressed juicing and vacuum-assisted dehydration, **making it the ideal way to efficiently get the phytonutrient equivalent of about five dinner salads.**

“

As a person who is “on the go” and who does not always select the most nutritious meals, MetaGreens has been such an amazing benefit in filling my nutrition gaps.

”

- Andy, Univera Customer

# MetaGreens<sup>®</sup>

*“Metagreens is a delicious nutritional boost for those who would like the benefits of a super food concentrate.”*

– Dr. Neil Tessler, Emerald Associate

## Fill the Nutrition Gaps

*Nutrients found in vegetables are valuable to good health. MetaGreens is a super-concentrated vegetable blend created to fill the void left by today’s processed foods.*

- *Ingredients from land and sea*
