

univera®

MetaGreens®

The phytonutrient
equivalent of about
5 dinner salads!

The Univera Difference

Cruciferous vegetables such as broccoli and Brussels sprouts, along with powerful levels of alfalfa, spirulina, barley, oats and pineapple, are combined by cold-pressed juicing and vacuum-assisted dehydration, **making it the ideal way to efficiently get the phytonutrient equivalent of about five dinner salads.**

“

As a person who is “on the go” and who does not always select the most nutritious meals, MetaGreens has been such an amazing benefit in filling my nutrition gaps.

”

- Andy, Univera Customer
