"I have been a registered nutritionist and massage therapist for 15 years. 11 years ago a good friend introduced me to Univera products and my world changed dramatically. I continued using the products daily and after 3 months of using RegeniCARE, my spine had full movement and was out of the discomfort I experienced for 15 years. I had the mobility in my back I thought was gone forever. I continue to use Univera products daily and they are my go-to for a rock solid health plan that will have me paddle boarding and playing with my kids for the rest of my life"
