## 206 Complete<sup>®</sup>

Move Your 206 Bones  
Effortlessly!

## Why You? Why Univera?

When you think of your bones, you often visualize something that is solid, inflexible; an unseen scaffolding that supports your muscles, organs and tissues. All that life happening inside your 206 bones requires nutritional support which can be difficult to obtain from diet alone.

Peak bone health can only be provided by a spectrum of quality ingredients at effective levels. Calcium alone is not the solution. Calcium intake, when combined with sufficient Vitamin D, a healthy diet and regular exercise, may reduce the risk of developing osteoporosis.

BONE & JOINT  
HEALTH

“ The days of taking Calcium alone for bone health are long past. 206 Complete is a cutting-edge supplement that incorporates the most well-researched factors to help maintain healthy bone structure. ”

– Dr. Neil Tessler  
Emerald Associate

## 206 Complete<sup>®</sup>

**Why strong bones?** Improving bone mass decreases the risk of fracture as we age and provides a stronger “frame” for the “house” we live in daily! Stronger bones carry you through busy days, no matter how exhausted your body may be.

## For Your 206 Bones

- Health Canada approved NPN (Natural Product Number): 80044444
- 45% of the recommended daily intake of Calcium
- Contains Vitamins K1 and K2 plus Magnesium, Vitamin C, Silicon and Boron for the maintenance of bones
- Targeted for both men and women

## Support Your Bones with Better Joint Health

Healthy bones are just part of the picture; healthy joints are critical too. The good news is that Univera’s powerful combinations of ingredients have been painstakingly (no pun intended) formulated to fight the effects of everyday wear and tear to restore total bone and joint health.
